

STATEMENT OF EVIDENCE

East Quarter Corner of Section 36, T. 38, R. 28, Benton Co., MN.

West Quarter Corner of Section 31, T. 38, R. 27, Mille Lacs Co., MN.

The line between Ranges 27 & 28, T. 38, was run by Dep. Surveyor Theo. Conkey in Oct. 1849. We were unable to find any remnants of his* monument or accessories for this corner.

*Please see the Certificate Of Location for the NE corner of Section 1, T. 37, R. 28, Benton County; also being the NW corner of Sec. 6, T. 37, R. 27, Mille Lacs County; for a "discussion" regarding general conditions (including GLO resurveys and "Judicial Roads") affecting the locations of the corners along this County line.

In 1994 we were hired by Benton Co. to restore certain corners along their east Co. line. Old survey notes, subsequent to the GLO notes, from both counties are as follows (in chronological order):

Benton: Requested from the Co. Hwy. Dept.. None provided other than GLO notes.

Mille Lacs: A 1911 "Plat of Road Survey" by Deputy Co. Surveyor S.L. Kennedy for a new road from the NW corner of 30-38-27 to the No. 1/4 corner of 28-38-27. Said survey shows he found the NW of 30, and restored the SW of 30, along the Co. line. (See the survey for the other corners found or restored by same) This survey shows a road on line on the W. line of 19 and the W. and So. lines of 30, but none on the W. line of 31. The road now in place would have had to been built since 1911.

There are no other subsequent surveys along the subject line that we are aware of.

We did not excavate here because there were no post GLO records and the corner location falls in a low area and would have most likely been removed by subcutting during construction. On 5/16/96 we restored this corner by SPM and placed a 3/4" by 14" iron pipe down 0.4', and made ties as shown on the front hereof.
