STATEMENT OF EVIDENCE:

A 1974 road alignment survey on file in the offices of the Benton Co. Hwy Dept indicates an iron pipe at this location.

A search of the area revealed no monument in place. Lines of occupation to the east and west are poorly defined. A north-south township road serves as an accessory to the corners east-west position.

I therefor placed the corner on the centerline of the road at proportioned distances between the intersection of the twp road and County Road 13 (the apparent 1/4 corner between Sections 11 and 12) and the section corner one mile north.
