INDEPENDENT AUDITORS' REPORT

Board of County Commissioners
Benton County
Foley, Minnesota

Report on the Financial Statements

We have audited the accompanying financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Benton County (the County), as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the County's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the County's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, each major fund, and the aggregate remaining fund information of Benton County as of December 31, 2020, and the respective changes in financial position, and where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Emphasis of a Matter Regarding Change in Accounting Principle

During the year ended December 31, 2020, the County adopted the provisions of Governmental Accounting Standards Board Statement (GASB) No. 84, *Fiduciary Activities*. As a result of the implementation of this standard, the County reported a restatement for a change in accounting principle (see Note 11). Our auditors' opinion was not modified with respect to the restatement.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, budgetary comparison information, schedule of changes in the total OPEB liability, related ratios, and notes, schedule of the proportionate share of the net pension liability, schedule of contributions, and notes to the required supplementary information, as listed in the table of contents, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Benton County's basic financial statements. The supplementary information listed in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards, as required by Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, is also presented for purposes of additional analysis and is not a required part of the basic financial statements.

Supplementary Information (continued)

The supplementary information and the schedule of expenditures of federal awards are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the supplementary information and the schedule of expenditures of federal awards are fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 26, 2021, on our consideration of Benton County's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is solely to describe the scope of our testing of internal control over financial reporting and compliance and the result of that testing, and not to provide an opinion on the effectiveness of Benton County's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Benton County's internal control over financial reporting and compliance.

REQUIRED SUPPLEMENTARY INFORMATION

**BENTON COUNTY
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED DECEMBER 31, 2020**

This section of Benton County's (County) annual financial report presents our discussion and analysis of the County's financial performance during the fiscal year that ended on December 31, 2020. The management's discussion and analysis (MD&A) is required supplementary information specified in the Governmental Accounting Standard Board's (GASB) Statement No. 34. Certain comparative information between the current year, 2020, and the prior year, 2019, is required to be presented in the MD&A.

FINANCIAL HIGHLIGHTS

Key financial highlights for the 2019-2020 fiscal years include the following:

- ◆ Government-wide net position increased 10.0% from the prior year; this is primarily due to the receipt of federal Coronavirus Aid, Relief and Economic Security Act (CARES) funding.
- ◆ Overall fund-level revenues totaled \$52,770,258 and were \$4,465,649 more than expenditures.
- ◆ The General Fund's fund balance increased \$3,212,945 from the prior year, primarily due to the CARES grant.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial section of the annual report consists of four parts – independent auditor's report, required supplementary information which includes the management's discussion and analysis (this section), the basic financial statements, and required supplementary information other than MD&A. The basic financial statements include two kinds of statements that present different views of the County:

- ◆ The first two statements are government-wide financial statements which provide both short-term and long-term information about the County's overall financial status.
- ◆ The remaining statements are fund financial statements which focus on individual parts of the County, reporting the County's operations in more detail than the government-wide statements.
 - The governmental funds statements tell how basic services such as general government, human services, and highways and streets were financed in the short-term, as well as what remains for future spending.
 - Fiduciary funds statements provide information about the financial relationships in which the County acts solely as a trustee or agent for the benefit of others to whom the resources belong.

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Figure A-2 summarizes the major features of the County's financial statements, including the portion of the County's activities they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis highlights the structure and contents of each of the statements.

Figure A-2. Major Features of the County's Government-Wide and Fund Financial Statements				
Type of statements	Government-Wide	Governmental Funds	Proprietary Funds	Fiduciary Funds
Scope	Entire County's government (except fiduciary funds).	The activities of the County that are not proprietary or fiduciary.	The activities of the County that operate similar to private businesses: internal service.	Instances in which the County is the trustee or agent for someone else's resources.
Required financial statements	Statement of net position.	Balance sheet.	Statement of net position.	Statement of fiduciary net position.
	Statement of activities.	Statement of revenues, expenditures, and changes in fund balances.	Statement of revenues, expenses, and change in net position and statement of cash flows.	Statement of changes in fiduciary net position.

Type of asset/liability information	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources, both financial and capital, short-term and long-term.	Only assets and deferred outflows of resources expected to be used up and liabilities and deferred inflows of resources that come due during the year or soon thereafter, no capital assets included.	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources, both financial and capital, and short-term and long-term.	All assets, deferred outflows of resources, liabilities, and deferred inflows of resources, both short-term and long-term; these funds do not currently contain capital assets, although they can.
Type of inflow/outflow information	All revenues and expenses during year, regardless of when cash is received or paid.	Revenues for which cash is received during or soon after the end of the year, expenditures when goods or services have been received and payment is due during the year or soon thereafter.	All revenues and expenses during the year, regardless of when cash is received or paid.	All additions and deductions during year, regardless of when cash is received or paid.

Government-Wide Statements

The government-wide statements report information about the County as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid.

**BENTON COUNTY
MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED DECEMBER 31, 2020**

OVERVIEW OF THE FINANCIAL STATEMENTS (CONTINUED)

Government-Wide Statements (Continued)

The two government-wide statements report the County's net position and how it has changed. Net position – the difference between the County's assets, deferred outflows of resources, liabilities, and deferred inflows of resources – is one way to measure the County's financial health or position.

- ◆ Over time, increases or decreases in the County's net position are an indicator of whether its financial position is improving or deteriorating, respectively.
- ◆ To assess the overall health of the County, you need to consider additional nonfinancial factors such as changes in the County's property tax base and the condition of County buildings and other facilities.
- ◆ Governmental activities – the County's basic services are included here. Property taxes and state aids finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the County's funds – focusing on its most significant or "major" funds – not the County as a whole. Funds are accounting devices the County uses to keep track of specific sources of funding and spending on particular programs:

- ◆ Some funds are required by state law and by bond covenants.
- ◆ The County establishes other funds to control and manage money for particular purposes (e.g., repaying its long-term debts) or to show that it is properly using certain revenues (e.g., federal grants).

The County has three kinds of funds:

- ◆ Governmental funds – The County's basic services are included in governmental funds, which generally focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out, and (2) the balances left at year-end that are available for spending. Consequently, the governmental funds statements provide a detailed short-term view that helps to determine whether there are more or fewer financial resources that can be spent in the near future to finance the County's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide a reconciliation that explains the relationship (or differences) between them.
- ◆ Proprietary Fund – The County uses this fund to manage the self-insurance activities.
- ◆ Fiduciary funds – The County is the fiscal agent, or fiduciary, for assets that belong to others. The County is responsible for ensuring that the assets reported in these funds are used only for their intended purposes and by those to whom the assets belong. All of the County's fiduciary activities are reported in a separate statement of fiduciary net position and a statement of changes in fiduciary net position. These activities are excluded from the government-wide financial statements because the County cannot use these assets to finance its operations.

FINANCIAL ANALYSIS OF THE COUNTY AS A WHOLE

Net Position

The County's net position was \$115,082,223 on December 31, 2020. (See Table A-1).

The increase in total net position was primarily due to an increase in intergovernmental revenues.

Changes in Net Position

The government-wide total revenues were \$52,546,906 for the year ended December 31, 2020. Property taxes, wheelage taxes, and intergovernmental revenues accounted for 88.2% of total revenue for the year. Total revenues for 2020 increased 25.8% from 2019, as charges for services decreased from the prior year. Total expenses increased by 7.3% due to an increase in public safety and highways and streets (see Table A-2).

Changes in Net Position (Continued)

The government-wide cost of all governmental activities this year was \$42,100,223.

- ◆ Some of the cost was paid by the users of the County's programs (\$2,969,774).
- ◆ The federal and state governments contributed to certain programs with grants and contributions (\$22,499,431).
- ◆ A significant portion of the County's remaining costs (\$16,631,018) were paid for by County taxpayers and the taxpayers of our state. This portion of governmental activities was paid for with \$23,522,610 in property and other taxes, \$3,089,294 of state aid, and \$465,797 from investment earnings and other general revenues.

FINANCIAL ANALYSIS OF THE COUNTY AT THE FUND LEVEL

The financial performance of the County as a whole is reflected in its governmental funds as well. As the County completed the year, its governmental funds reported a combined fund balance of \$35,616,725.

Revenues for the County's governmental funds were \$52,770,258, while total expenditures were \$48,304,609. The associated increase of \$4,465,649 resulted from revenues being higher than expenditures and 2020 revenues increasing from 2019 revenues.

General Fund

The General Fund includes the primary operations of the County in providing services to citizens. The year-ending fund balance in the General Fund increased by \$3,212,945 from 2019, primarily due to a \$6 million increase in intergovernmental revenues.

Road and Bridge Fund

The Road and Bridge Fund accounts for financial activity related to the construction and maintenance of the County road system, including County state-aid highways and County roads. The fund balance in the Road and Bridge Fund decreased by \$202,756 (excluding the adjustment for change in inventory) from 2019, due primarily to an increase in highways and streets expenditures.

MANAGEMENT'S DISCUSSION AND ANALYSIS
YEAR ENDED DECEMBER 31, 2020**

FINANCIAL ANALYSIS OF THE COUNTY AT THE FUND LEVEL (CONTINUED)

Human Services Fund

The Human Services Fund accounts for financial activity related to the provision of social services, medical and financial assistance, and public health. The fund balance in the Human Services Fund increased by \$988,971 from 2019. This increase can be attributed primarily to more than expected intergovernmental revenues and less expenditures than budgeted.

Miscellaneous Special Revenue Fund

The Miscellaneous Special Revenue Fund accounts for the financial activity related to a number of smaller activities, including solid waste management, E-911 surcharge funds, natural resources block grants, and park dedication fees. The fund balance in the Miscellaneous Fund increased by \$148,818 from 2019. This increase can be attributed primarily to a decrease in general government and public safety expenditures in 2020.

Debt Service Fund

The Debt Service Fund accounts for principal, interest, and fiscal agent fees associated with the County's outstanding debt, including general obligation debt. The fund balance in the Debt Service Fund increased by \$84,800 in 2020 from 2019. This increase is attributed to increased tax revenue in excess of scheduled principal debt service payments.

Capital Projects Fund

The Capital Projects Fund accounts for the financing of multi-year capital projects, including those funded with Capital Improvement Plan bonds, property tax, and sales tax revenues. The fund balance increase of \$183,367 was due to an increase in sales tax revenues offsetting the \$2.77 million transfer out for project expenditures.

The following schedule presents a summary of General Fund revenues:

**Table A-4

Total Expenditures	<u>\$ 19,023,491</u>	<u>\$ 16,161,202</u>	<u>\$ 2,862,289</u>	17.7

Total General Fund expenditures increased by \$2,862,289, or 17.7%, from 2019 due primarily to increased public safety expenditures.

GENERAL FUND BUDGETARY HIGHLIGHTS

- ◆ Actual revenues were \$5,745,233 more than budgeted. This favorable variance is due primarily to higher than expected intergovernmental revenues.
- ◆ Actual expenditures were \$1,981,375 more than budgeted due to unexpected spending related to the COVID-19 pandemic.

CONSTRUCTION PROJECTS AND DEBT SERVICE

The Capital Projects Fund accounts for the use of bond proceeds, State County Program Aid, and other resources to finance the purchase or improvement of capital assets. Activity during 2020 was related to building improvements and infrastructure projects.

An annual levy is made to fund the bond payments for all previous bond issues.

MANAGEMENT'S DISCUSSION AND ANALYSIS

FACTORS BEARING ON THE COUNTY'S FUTURE

The fiscal uncertainties of a year ago have moderated. A predicted State of Minnesota budget deficit of \$2.4 billion shifted to a \$1 billion surplus as the State adopted its fiscal 2022-2023 biennial budget in June 2021. That biennial budget included no reductions in local government aid, nor any new unfunded mandates or cost-shifts, all welcome news for local governments in Minnesota.

Locally, some financial impacts of the COVID pandemic remain. Jail populations are still well below historical norms, creating substantial reductions in out-of-county boarding revenue. Reduced fuel consumption during the pandemic has led to declining state aid for road maintenance and construction. Helping to offset those reductions in the short-term will be federal American Rescue Plan Act funds, which can replace revenues lost due to the pandemic. Such revenue replacement can serve as a bridge to a point in time when revenues return to normal levels.

Other financial impacts related to the pandemic include sudden increases in prices for commodities used by County Departments, as supply chains are disrupted or extraordinary demand exists. Also, in cases where the County contracts for outside professional services or labor, those employers are facing higher wage costs, which they pass on to the County. Overall, it appears the era of low inflation is over.

The County, like most all employers, is facing unprecedented conditions in the labor market. Pressures to increase wages and benefits to remain competitive are mounting. To respond, the County completed a comprehensive wage study in 2021 and implemented its results in July 2021. The study produced substantial increases in the County's starting wage rates, in particular for entry-level positions where the County has struggled with recruitments. Implementing the wage study should help with the County's recruitment and retention efforts, although the cost will most likely produce the largest property tax levy increase the County has seen in a decade.

Benton County is among the 15 fastest growing counties in Minnesota. Population growth will likely lead to demands for increased staffing in most areas of County government, particularly the front-line customer and client servicing positions. One immediate response to the pandemic was to allow large numbers of employees to work remotely. State waivers allowing County employees to interact with clients remotely made remote work possible. Long term not as many employees may be able to work remotely, which could lead to office space shortages.

In response, the County is exploring office space options, which could include land acquisition and new construction. While some portion of the financing for new office space could come from cash on hand, capital improvement plan bonding may be required. Adding new debt would require increased property tax levies to pay the principal and interest on those bonds. Over the past ten years the County has reduced its outstanding bonded debt by 50 percent, providing sufficient bonding capacity for an office project.

Lastly, despite additional costs resulting from the pandemic and related revenue losses, County fund balances remain in excellent condition. Widespread property tax delinquencies did not materialize as once feared. In fact, property tax collections during the pandemic performed at normal, pre-pandemic levels. Although fiscal uncertainties remain as the pandemic is still not fully under control, County finances have demonstrated resilience, positioning the County to function effectively despite a slow and uneven economic recovery.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Benton County’s financial statements are prepared in accordance with accounting principles generally accepted in the United States of America (GAAP) for the year ended December 31, 2020. The Governmental Accounting Standards Board (GASB) is responsible for establishing GAAP for state and local governments through its pronouncements (statements and interpretations). The more significant accounting policies established in GAAP and used by the County are discussed below.

A. Financial Reporting Entity

Benton County (County) was established October 27, 1849, and is an organized county having the powers, duties, and privileges granted counties by Minnesota Statutes ch. 373. As required by accounting principles generally accepted in the United States of America, these financial statements present Benton County (Primary Government) and its component units for which the County is financially accountable. The County is governed by a five-member board of commissioners elected from districts within the County. The board is organized with a chair and vice-chair elected at the annual meeting in January of each year.

Blended Component Units

Blended component units are legally separate organizations that are so intertwined with the County that they are, in substance, the same as the County and, therefore, are reported as if they were part of the County. Benton County has two blended component units. The Housing and Redevelopment Authority (HRA) had no activity in 2020.

<u>Component Unit</u>	<u>Component Unit Reporting Entity Because</u>	<u>Separate Financial Statements</u>
Housing and Redevelopment Authority of Benton County (HRA)	County Commissioners are the Members of the HRA Board	Separate Financial Statements are not Prepared
Benton County Economic Development Authority (EDA)	County Commissioners are the Members of the EDA Board	Separate Financial Statements are not Prepared

Joint Ventures

The County participates in several joint ventures which are described in Note 9.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basic Financial Statements

1. Government-Wide Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) display information about the Primary Government and its component units. These statements include the financial activities of the overall County government, except for fiduciary activities. Eliminations have been made to minimize the double-counting of internal activities.

In the government-wide statement of net position, the governmental activities are presented on a consolidated basis, and are reported on a full accrual, economic resource basis, which recognizes all long-term assets and receivables as well as long-term debt and obligations. The County's net position is reported in three parts: (1) net investment in capital assets, (2) restricted net position, and (3) unrestricted net position.

The statement of activities demonstrates the degree to which the direct expenses of each function of the County's governmental activities are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or activity. Program revenues include: (1) fees, fines, and charges paid by the recipients of goods, services, or privileges provided by a given function or activity; and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function or activity. Revenues that are not classified as program revenues, including all taxes, are presented as general revenues.

2. Proprietary Fund Statements

Proprietary fund operating revenues, such as charges for services, result from exchange transactions associated with the principal activity of the fund. Exchange transactions are those in which each party receives and gives up essentially equal values. Nonoperating revenues, such as subsidies and investments earnings, result from nonexchange transactions or incidental activities.

3. Fund Financial Statements

The fund financial statements provide information about the County's funds, including its fiduciary funds and blended component units. Separate statements for each fund category—governmental, proprietary, and fiduciary—are presented. The emphasis of governmental and proprietary fund financial statements is on major individual governmental and internal service funds, with each displayed as a separate column in the fund financial statements. All remaining governmental funds are aggregated and reported as nonmajor funds.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

B. Basic Financial Statements (Continued)

3. Fund Financial Statements (Continued)

The County reports the following major governmental funds:

The General Fund is the County's primary operating fund. It accounts for all financial resources of the general government, except those accounted for in another fund.

The Road and Bridge Special Revenue Fund is used to account for revenues and expenditures of the County Highway Department which is responsible for the construction and maintenance of roads, bridges, and other projects affecting County roadways. Property taxes and intergovernmental revenues are the primary funds committed for these projects.

The Human Services Special Revenue Fund is used to account for public health, economic assistance, and community social services programs. These programs are funded primarily by property taxes, committed through the board approved levy, and intergovernmental revenues.

The Miscellaneous Special Revenue Fund is used to account for a number of smaller activities that do not have their own fund, including solid waste management, E-911 surcharge funds, natural resources block grants, and park dedication fees. Most of these activities are funded by restricted revenue sources.

The Debt Service Fund is used to account for the accumulation of resources for, and the payments of, principal, interest, and related costs of the County's long-term bonds, which are financed by property tax revenue restricted through bond documents.

The Capital Projects Fund is used to account for financial resources to be used for capital acquisition, construction, or improvement of capital facilities. Financing is provided by bonds issued by the County, state aid, and levy dollars.

The County reports the following internal service fund:

Self-Insurance Internal Service Fund – is used to account for the County's self-insured insurance program. Financing is provided by charges to other County funds and employer insurance premiums. The County's self-insurance program started in January 2018.

B. Basic Financial Statements (Continued)

3. Fund Financial Statements (Continued)

Additionally, the County reports the following fund type:

Fiduciary:

Private-purpose trust funds are used to report trust arrangements other than pension or investment trusts, under which principal and income benefit individuals, private organizations, or other governments. The County reports three private-purpose trust funds, the Social Welfare Fund which accounts for the activity related to income received and payments made on behalf of individuals for whom the County is responsible to assist, the Henkemeyer Trust which accounts for money held for potential environmental remediation at a local privately owned landfill, and the Missing Heirs Fund which accounts for estate collections in the County that don't have any identifiable heirs to remit payment to.

Custodial funds are custodial in nature. These funds are used for a variety of purposes such as: to account for the collection and disbursement of taxes on behalf of local governments within the County; as an agent for a mental health collaborative and estate recoveries; as an agent for an adult mental health delivery system organization, as an agent for state revenue payments, and as an agent for the inmates of the Benton County Jail.

C. Measurement Focus and Basis of Accounting

The government-wide, proprietary fund, and fiduciary fund financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenues are recorded when earned, and expenses are recorded when a liability is incurred, regardless of the timing of related cash flows. Property taxes are recognized as revenues in the year for which they are levied. Grants and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenues are recognized as soon as they are both measurable and available. Benton County considers all revenues to be available if they are collected within 90 days after the end of the current period, with the exception of property taxes and special assessments which are considered to be available if collected within 60 days after the end of the current period. Property and other taxes, licenses, and interest are all considered to be susceptible to accrual. Expenditures are recorded when the related fund liability is incurred, except for principal and interest on general long-term debt, compensated absences, and claims and judgments, which are recognized as expenditures to the extent that they have matured. Issuances of general long-term debt and acquisitions under capital leases are reported as other financing sources.

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first and then unrestricted as needed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity

1. Cash and Cash Equivalents

For the purpose of the statement of cash flows, cash and cash equivalents include cash on hand and all cash and investments with an original maturity of three months or less.

2. Deposits and Investments

The cash balances of substantially all funds are pooled and invested by the County Auditor-Treasurer for the purpose of increasing earnings through investment activities. Pooled and fund investments are reported at their fair value at December 31, 2020, based on market prices. Investment earnings are allocated to the Miscellaneous Special Revenue Fund based on cash balances set aside for specific purposes within that fund. Pursuant to Minnesota Statutes §385.07, investment earnings on cash and pooled investments are credited to the General Fund. Other funds received investment earnings based on other state statutes, grant agreements, contracts, and bond covenants. Pooled investment earnings for 2020 were \$241,771.

Benton County invests in an external investment pool, the Minnesota Association of Governments Investing for Counties (MAGIC) Fund, which is created under a joint powers agreement pursuant to Minnesota Statutes §471.59. The investment in the pool is measured at the net asset value per share provided by the pool.

3. Receivables and Payables

Activity between funds representative of lending/borrowing arrangements outstanding at the end of the fiscal year is referred to as either "due to/from other funds" (i.e., the current portion of interfund loans) or "advances to/from other funds" (i.e., the noncurrent portion of interfund loans).

All other outstanding balances between funds are reported as "due to/from other funds."

Loans receivable in the Economic Development Fund consist of operating loans to businesses and are offset by an allowance for doubtful accounts of \$6,684. The County develops an estimate of this allowance based on specific identification.

Property taxes are levied as of January 1 on property values assessed as of the same date. The tax levy notice is mailed in March with the first half payment due on May 15 and the second half payment due October 15.

Unpaid taxes at December 31 become liens on the respective property and are classified in the financial statements as delinquent taxes receivable. No provision has been made for an estimated uncollectible amount.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)

3. Receivables and Payables (Continued)

Special assessments receivable consist of delinquent special assessments payable in the years 2015 through 2020, and noncurrent special assessments payable in 2020, and after. No provision has been made for an estimated uncollectible amount. Significant portions of special assessments receivable are not expected to be collected within one year due to the nature of the receivable.

4. Inventories

All inventories are valued at cost using the first-in/first-out (FIFO) method. Inventories in governmental funds are recorded as expenditures when purchased rather than when consumed. Reported inventories are equally offset by nonspendable fund balance to indicate they do not constitute available spendable resources.

5. Prepaid Items

Certain payments to vendors reflect costs applicable to future accounting periods and are recorded as prepaid items in both government-wide and fund financial statements.

6. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, and similar items), are reported in the government-wide financial statements. In the case of initial capitalization of infrastructure, the County retroactively implemented the reporting of this item when GASB Statement No. 34 was implemented. Capital assets are defined by the government as assets with an initial, individual cost of more than \$5,000 for all capital assets, except for buildings, which use a threshold of \$25,000. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at acquisition value.

The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset's lives are not capitalized.

Major outlays for capital assets and improvements are capitalized as projects are constructed.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)

6. Capital Assets (Continued)

Property, plant, and equipment of the County are depreciated using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	50
Land Improvements	20
Public Domain Infrastructure	15-35
Machinery, Vehicles, Furniture, and Equipment	5-20

7. Compensated Absences

The liability for compensated absences reported in the financial statements consists of unpaid, accumulated paid-time-off (PTO) balances or vacation and sick leave balances. The liability has been calculated using the vesting method, in which leave amounts for both employees who currently are eligible to receive termination payments and other employees who are expected to become eligible in the future to receive such payments upon termination are included. Compensated absences are accrued when incurred in the government-wide financial statements. A liability for these amounts is reported in the governmental funds only if they have matured, for example, as a result of employee resignations and retirements. The current portion is equal to 5% of the ending compensated absences balance based on historical trends. The noncurrent portion consists of the remaining amount of PTO or vacation and sick leave.

The compensated absences liability is generally liquidated in the General Fund and applicable Special Revenue Funds.

8. Deferred Outflows of Resources

In addition to assets, the statement of net position reports a separate section for deferred outflows of resources. This separate section represents a consumption of net position that applies to a future period. The County will not recognize the related outflow until a future event occurs. More detailed information about pension related deferred outflows of resources can be found in Note 5 to the financial statements and more information about other postemployment benefit related deferred outflows of resources can be found in Note 7 to the financial statements.

NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)

9. Deferred Inflows of Resources

The County's financial statements report a separate section for deferred inflows of resources. This separate financial statement element reflects an increase in net position or fund balance that applies to a future period. The County will not recognize the related revenue until a future event occurs. The County has three types of items. The first type of deferred inflows of resources occurs because governmental fund revenues are not recognized until available (collected not later than 60 days after the end of the County's year for property taxes and special assessments and 90 days after the end of the County's year for all other revenues) under the modified accrual basis of accounting. The second type relates to pension liabilities as described in Note 5 to the financial statements. The third type relates to other postemployment benefits as described in Note 7 to the financial statements. These inflows arise only under the full accrual basis of accounting and are reported only in the statement of net position.

10. Unearned Revenue

Governmental funds, government-wide, and fiduciary financial statements report unearned revenue in connection with resources that have been received but not yet earned.

11. Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discount are amortized over the life of the bonds using the straight-line method which approximates the effective interest rate method. Bonds payable are reported net of the applicable bond premium or discount. Bond issuance costs are expensed in the year of bond issuance.

In the fund financial statements, governmental fund types recognize bond premiums and discounts, as well as bond issuance costs, during the current period. The face amount of the debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)

12. Other Postemployment Benefits Liability (OPEB Liability)

For the purposes of measuring the OPEB liability, deferred outflows of resources related to OPEB, deferred inflows of resources related to OPEB, and OPEB expense, information about the OPEB Plan and additions to/deductions from the Plan have been determined on the same basis as they were reported to the Plan. For this purpose, the Plan recognized benefit payments when due and payable in accordance with the benefit term. No assets are accumulated in a trust that meets the criteria in paragraph 4 of Statement 75.

The OPEB liability is generally liquidated in the General Fund and applicable Special Revenue Funds.

13. Pension

For purposes of measuring the net pension liability, deferred outflows/inflows of resources, and pension expense, information about the fiduciary net position of the Public Employees Retirement Association (PERA) and additions to/deductions from PERA's fiduciary net position have been determined on the same basis as they are reported by PERA. For this purpose, plan contributions are recognized as of employer payroll paid dates and benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

The pension liability is generally liquidated in the General Fund and applicable Special Revenue Funds.

14. Classification of Net Position

In the government-wide and proprietary fund financial statements, net position is classified as net investment in capital assets, restricted, and unrestricted. Net investment in capital assets is the amount of net position representing capital assets, net of accumulated depreciation, and reduced by outstanding debt attributed to the acquisition, construction, or improvement of the assets. Restricted net position is the amount of net position for which there are external restrictions of other governments and restrictions imposed by law through constitutional provisions or enabling legislation. Unrestricted net position is the amount of net position that does not meet the definition of restricted or net investment in capital assets.

DECEMBER 31, 2020

NOTE 1 SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

D. Assets, Deferred Outflows of Resources, Liabilities, Deferred Inflows of Resources, and Net Position or Equity (Continued)

15. Fund Equity

In the fund financial statements, governmental funds report nonspendable, restricted, committed, assigned, and unassigned fund balances. Nonspendable portions of fund balance relate to prepaids, inventories, and long-term receivables, as applicable, which cannot be spent because they are not in spendable form. Restricted funds are constrained from outside parties (statute, grantors, bond agreements, etc.). Committed fund balances are established and modified by a resolution approved by the board of commissioners. The County Administrator is delegated to assign fund balances and their intended uses. Unassigned fund balance is the residual classification for the County's General Fund and includes all spendable amounts not contained in other classifications. Unassigned also includes deficit balances in other governmental funds.

When an expense is incurred for purposes for which both restricted and unrestricted net position is available, it is the County's policy to use restricted first, and then unrestricted net position. When an expenditure is incurred for purposes for which restricted, committed, assigned, and unassigned amounts are available, it is the County's policy to use restricted amounts first, then committed amounts, then assigned amounts, and finally unassigned amounts.

It is the County's policy that at the end of each fiscal year to maintain an unrestricted portion of the fund balance of no less than five months of operating expenditures in the General, Road and Bridge, and Human Services Funds.

16. Use of Estimates

The preparation of financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets, deferred outflows of resources, liabilities, and deferred inflows of resources at the date of the financial statements and the reported amounts of revenues and expenditures/expenses during the reporting period. Actual results could differ from those estimates.

NOTE 3 DETAILED NOTES ON ALL FUNDS

A. Assets

1. Deposits and Investments

Reconciliation of Benton County’s total cash and investments to the basic financial statements follows:

Government-Wide Statement of Net Position	
Governmental Activities:	
Cash and Pooled Investments	\$ 35,027,315
Petty Cash and Change Funds	2,800
Statement of Fiduciary Net Position	
Cash and Pooled Investments	1,682,783
Total Cash and Investments	\$ 36,712,898

a. Deposits

Minnesota Statutes §§ 118A.02 and 118A.04 authorize the County to designate a depository for public funds and to invest in certificates of deposit. Minnesota Statutes §118A.03 requires that all County deposits be protected by insurance, surety bond, or collateral. The market value of collateral pledged shall be at least 10% more than the amount on deposit plus accrued interest at the close of the financial institution’s banking day, not covered by insurance or bonds.

Authorized collateral includes: U.S. government treasury bills, notes, or bonds; issues of U.S. government agencies; general obligations rated “A” or better; revenue obligations rated “AA” or better; irrevocable standby letters of credit issued by a Federal Home Loan Bank; and certificates of deposit. Minnesota Statutes require securities pledged as collateral be held in safekeeping in a restricted account at the Federal Reserve Bank or in an account at a trust department of a commercial bank or other financial institution that is not owned or controlled by the financial institution furnishing the collateral.

Custodial Credit Risk – Deposits

Custodial credit risk is the risk that in the event of a financial institution failure, the County’s deposits may not be returned to it. It is the County’s policy to obtain collateral or bonds for all uninsured amounts on deposit, and to obtain necessary documentation to show compliance with state law and a perfected security interest under federal law. As of December 31, 2020, none of the County’s deposits were exposed to custodial credit risk.

A. Assets (Continued)

1. Deposits and Investments (Continued)

b. Investments

Minnesota Statutes §§118A.04 and 118A.05 generally authorize the following types of investments as available to the County:

- (1) Securities which are direct obligations or are guaranteed or insured issues of the United States, its agencies, its instrumentalities, or organizations created by an act of Congress, except mortgage-backed securities defined as "high risk" by Minnesota Statutes §118A.04, Subd. 6;
- (2) Mutual funds through shares of registered investment companies provided the mutual fund receives certain ratings depending on its investments;
- (3) General obligations of the state of Minnesota and its municipalities, and in certain state agency and local obligations of Minnesota and other states provided such obligations have certain specified bond ratings by a national bond rating service;
- (4) Bankers' acceptances of United States banks;
- (5) Commercial paper issued by United States corporations or their Canadian subsidiaries that is rated in the highest quality category by two nationally recognized rating agencies and matures in 270 days or less; and
- (6) With certain restrictions, in repurchase agreements, securities lending agreements, joint powers investment trusts, and guaranteed investment contracts.

Interest Rate Risk

Interest rate risk is the risk that changes in the market interest rates will adversely affect the fair value of an investment. The County does not have a formal policy to manage its exposure to interest rate risk.

Credit Risk

Generally, credit risk is the risk that an issuer of an investment will not fulfill its obligation to the holder of the investment. This is measured by the assignment of a rating by a national recognized statistical rating organization. It is the County's policy to invest only in securities that meet the rating requirements set by state statute.

b. Investments (Continued)

Custodial Credit Risk – Investments

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. It is the County's policy to have all of its investments that are held by brokers covered 100% by SIPC.

Concentration of Credit Risk

The concentration of credit risk is the risk of loss that may be caused by the County's investment in a single issuer. The County places a limit on investing to no more than 25% of total County investments in one type of security.

The following table presents the County's deposit and investment balances at December 31, 2020, and information relating to potential investment risks:

c. Fair Value Measure

The County uses fair value measurements to record fair value adjustments to certain assets and liabilities and to determine fair value disclosures.

The County follows an accounting standard that defines fair value, establishes a framework for measuring fair value, establishes a fair value hierarchy based on the quality of inputs used to measure fair value, and requires expanded disclosures about fair value measurements. In accordance with this standard, the County has categorized its investments, based on the priority of the inputs to the valuation technique, into a three-level hierarchy. The fair value hierarchy gives the highest priority to quoted prices in active markets for identical assets or liabilities (Level 1) and the lowest priority to unobservable inputs (Level 3). If the inputs used to measure the financial instruments fall within different levels of the hierarchy, the categorization is based on the lowest level input that is significant to the fair value measurement of the instrument.

Financial assets and liabilities recorded on the combined statements of financial position are categorized based on the inputs to the valuation techniques as follows:

Level 1 – Financial asset and liabilities are valued using inputs that are adjusted quoted prices in active markets accessible at the measurement date of identical financial assets and liabilities.

Level 2 – Financial assets and liabilities are valued based on quoted prices for similar assets, or inputs that are observable, either directly or indirectly for substantially the full term through corroboration with observable market data.

Level 3 – Financial assets and liabilities are valued using pricing inputs which are unobservable for the asset, inputs that reflect the reporting entity's own assumptions about the assumptions market participants and would use in pricing the asset.

	Deposits			9,324,272
	Petty Cash			2,800
	Total Deposits and Investments			<u>\$ 36,712,898</u>

The County invests in the MAGIC Fund external local government investment pool which is quoted at amortized cost. The County invests in this pool for the purpose of the joint investment of the County's money with those other counties to enhance the investment earnings accruing to each member. The MAGIC portfolio is valued using amortized cost. Shares of the MAGIC portfolio are available to be redeemed upon proper notice without restrictions under normal operating conditions. There are no limits to the number of redemptions that can be made as long as the County has a sufficient number of shares to meet their redemption request. The MAGIC Fund's Board of Trustees can suspend the right of withdrawal or postpone the date of payment if the Trustees determine that there is an emergency that makes the sale of a portfolio's securities or determination of its net asset value not reasonably practical.

2. Loans Receivable

Loans receivable is reported at \$327,512; of this amount, \$203,600 is expected to be collected in more than one year.

NOTE 5 DEFINED BENEFIT PENSION PLANS

A. Plan Description

The County participates in the following cost-sharing multiple-employer defined benefit pension plans administered by the Public Employees Retirement Association of Minnesota (PERA). PERA's defined benefit pension plans are established and administered in accordance with Minnesota Statutes, Chapters 353 and 356. PERA's defined benefit pension plans are tax-qualified plans under Section 401(a) of the Internal Revenue Code.

1. General Employees Retirement Plan

The General Employees Retirement Plan covers certain full time and part-time employees of Benton County. General Employees Plan members belong to the Coordinated Plan. Coordinated Plan members are covered by Social Security.

2. Public Employees Police and Fire Plan

The Police and Fire Plan, originally established for police officers and firefighters not covered by a local relief association, now covers all police officers and firefighters hired since 1980. Effective July 1, 1999, the Police and Fire plan also covers police officers and firefighters belonging to local relief associations that elected to merge with and transfer assets and administration to PERA.

3. Local Government Correctional Plan

The Correctional Plan was established for correctional officers serving in county and regional corrections facilities. Eligible participants must be responsible for the security, custody, and control of the facilities and their inmates.

B. Benefits Provided

PERA provides retirement, disability, and death benefits. Benefit provisions are established by state statute and can only be modified by the state legislature. Vested, terminated employees who are entitled to benefits, but are not receiving them yet, are bound by the provisions in effect at the time they last terminated their public service.

NOTE 5 DEFINED BENEFIT PENSION PLANS (CONTINUED)

B. Benefits Provided (Continued)

1. General Employees Plan Benefits

General Employees Plan benefits are based on a member's highest average salary for any five successive years of allowable service, age, and years of credit at termination of service. Two methods are used to compute benefits for PERA's Coordinated Plan members. Members hired prior to July 1, 1989, receive the higher of Method 1 or Method 2 formulas. Only Method 2 is used for members hired after June 30, 1989. Under Method 1, the accrual rate for Coordinated members is 1.2% for each of the first 10 years of service and 1.7% for each additional year. Under Method 2, the accrual rate for Coordinated members is 1.7% for all years of service. For members hired prior to July 1, 1989 a full annuity is available when age plus years of service equal 90 and normal retirement age is 65. For members hired on or after July 1, 1989, normal retirement age is the age for unreduced Social Security benefits capped at 66.

Benefit increases are provided to benefit recipients each January. The postretirement increase is equal to 50% of the cost-of-living adjustment (COLA) announced by the SSA, with a minimum increase of at least 1% and a maximum of 1.5%. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase. For members retiring on January 1, 2024, or later, the increase will be delayed until normal retirement age (age 65 if hired prior to July 1, 1989, or age 66 for individuals hired on or after July 1, 1989). Members retiring under Rule of 90 are exempt from the delay to normal retirement.

2. Police and Fire Plan Benefits

Benefits for Police and Fire Plan members first hired after June 30, 2010, but before July 1, 2014, vest on a prorated basis from 50% after five years up to 100% after 10 years of credited service. Benefits for Police and Fire Plan members first hired after June 30, 2014, vest on a prorated basis from 50% after 10 years up to 100% after 20 years of credited service. The annuity accrual rate is 3% of average salary for each year of service. For Police and Fire Plan members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

NOTE 5 DEFINED BENEFIT PENSION PLANS (CONTINUED)

B. Benefits Provided (Continued)

2. Police and Fire Plan Benefits (Continued)

Benefit increases are provided to benefit recipients each January. The postretirement increase will be fixed at 1%. Recipients that have been receiving the annuity or benefit for at least 36 months as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least 25 months but less than 36 months as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

3. Correctional Plan Benefits

Benefits for Correctional Plan members first hired after June 30, 2010, vest on a prorated basis from 50% after five years up to 100% after 10 years of credited service. The annuity accrual rate is 1.9% of average salary for each year of service in that plan. For Correctional Plan members who were first hired prior to July 1, 1989, a full annuity is available when age plus years of service equal at least 90.

Benefit increases are provided to benefit recipients each January. The postretirement increase will be equal to 100% of the COLA announced by SSA, with a minimum increase of at least 1% and a maximum of 2.5%. If the plan's funding status declines to 85% or below for two consecutive years or 80% for one year, the maximum will be lowered from 2.5% to 1.5%. Recipients that have been receiving the annuity or benefit for at least a full year as of the June 30 before the effective date of the increase will receive the full increase. Recipients receiving the annuity or benefit for at least one month but less than a full year as of the June 30 before the effective date of the increase will receive a reduced prorated increase.

C. Contributions

Minnesota Statutes Chapter 353 sets the rates for employer and employee contributions. Contribution rates can only be modified by the state legislature.

1. General Employees Fund Contributions

Coordinated Plan members were required to contribute 6.50% of their annual covered salary in fiscal year 2020 and the County was required to contribute 7.50% for Coordinated Plan members. The County's contributions to the General Employees Fund for the year ended December 31, 2020 were \$822,109. The County's contributions were equal to the required contributions as set by state statute.

NOTE 5 DEFINED BENEFIT PENSION PLANS (CONTINUED)

C. Contributions (Continued)

2. Police and Fire Fund Contributions

Police and Fire member's contribution rates increased from 11.3% of their annual covered salary to 11.8% and employer rates increased from 16.95% to 17.70% on January 1, 2020. The County's contributions to the Police and Fire Fund for the year ended December 31, 2020 were \$362,468. The County's contributions were equal to the required contributions as set by state statute.

3. Correctional Fund Contributions

Plan members were required to contribute 5.83% of their annual covered salary and the County was required to contribute 8.75% of pay for plan members in fiscal year 2020. The County's contributions to the Correctional Fund for the year ended December 31, 2020 were \$240,056. The County's contributions were equal to the required contributions as set by state statute.

D. Pension Costs

1. General Employees Fund Pension Costs

At December 31, 2020, the County reported a liability of \$9,292,958 for its proportionate share of the General Employees Fund's net pension liability. The County's net pension liability reflected a reduction due to the state of Minnesota's contribution of \$16 million to the fund in 2020. The state of Minnesota is considered a nonemployer contributing entity and the state's contribution meets the definition of a special funding situation. The state of Minnesota's proportionate share of the net pension liability associated with the County totaled \$286,598. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportionate share of the net pension liability was based on the County's contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020, relative to the total employer contributions received from all of PERA's participating employers. The County's proportionate share was 0.1550% at the end of the measurement period and 0.1502% for the beginning of the period.

D. Pension Costs (Continued)

1. General Employees Fund Pension Costs (Continued)

For the year ended December 31, 2020, the County recognized pension expense of \$266,466 for its proportionate share of the General Employees Plan's pension expense. In addition, the County recognized \$24,943 as grant revenue for its proportionate share of the state of Minnesota's pension expense for the annual \$16 million contribution.

At December 31, 2020, the County reported its proportionate share of the General Employees Plan's deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Differences Between Expected and Actual Economic Experience	\$ 84,729	\$ 35,160
Changes in Actuarial Assumptions	-	344,526
Net Difference Between Projected and Actual Earnings on Pension Plan Investments	160,542	-

Agency Contributions Subsequent to the Measurement Date	428,914	-
Total	<u>\$ 903,524</u>	<u>\$ 559,998</u>

The \$428,914 reported as deferred outflows of resources related to pensions resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability in the year ended December 31, 2021. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

<u>Year Ended December 31,</u>	<u>Pension Expense Amount</u>

D. Pension Costs (Continued)

2. Police and Fire Fund Pension Costs

At December 31, 2020, the County reported a liability of \$2,292,188 for its proportionate share of the Police and Fire Fund's net pension liability. The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The County's proportionate share of the net pension liability was based on the County contributions received by PERA during the measurement period for employer payroll paid dates from July 1, 2019 through June 30, 2020, relative to the total employer contributions received from all of PERA's participating employers. Benton County proportionate share was 0.1739% at the end of the measurement period and 0.1752% for the beginning of the period.

The state of Minnesota contributed \$13.5 million to the Police and Fire Fund in the plan fiscal year ended June 30, 2020. The contribution consisted of \$4.5 million in direct state aid that does meet the definition of a special funding situation and \$9.0 million in supplemental state aid that does not meet the definition of a special funding situation. The \$4.5 million direct state was paid on October 1, 2019. Thereafter, by October 1 of each year, the state will pay \$9 million to the Police and Fire Fund until full funding is reached or July 1, 2048, whichever is earlier. The \$9 million in supplemental state aid will continue until the fund is 90% funded, or until the State Patrol Plan (administered by the Minnesota State Retirement System) is 90% funded, whichever occurs later.

The state of Minnesota is included as a nonemployer contributing entity in the Police and Fire Retirement Plan Schedule of Employer Allocations and Schedule of Pension Amounts by Employer, Current Reporting Period Only (pension allocation schedules) for the \$4.5 million in direct state aid. Police and Fire Plan employers need to recognize their proportionate share of the state of Minnesota's pension expense (and grant revenue) under GASB 68 special funding situation accounting and financial reporting requirements. For the year ended December 31, 2020, the County recognized pension expense of \$259,710 for its proportionate share of the Police and Fire Plan's pension expense. The County recognized \$16,614 as grant revenue for its proportionate share of the state of Minnesota's pension expense for the contribution of \$4.5 million to the Police and Fire Fund.

The state of Minnesota is not included as a nonemployer contributing entity in the Police and Fire Pension Plan pension allocation schedules for the \$9 million in supplemental state aid. The County recognized \$15,651 for the year ended December 31, 2020 as revenue and an offsetting reduction of net pension liability for its proportionate share of the state of Minnesota's on-behalf contributions to the Police and Fire Fund.

F. Actuarial Assumptions

The total pension liability in the June 30, 2020, actuarial valuation was determined using an individual entry-age normal actuarial cost method and the following actuarial assumptions:

	<u>GERF</u>	<u>PEPFP</u>	<u>PECF</u>
Inflation	2.25% per Year	2.50% per Year	2.50% per Year
Active Member Payroll Growth	3.00% per Year	3.25% per Year	3.25% per Year
Investment Rate of Return	7.50%	7.50%	7.50%

Salary increases were based on a service-related table. Mortality rates for active members, retirees, survivors, and disabilitants were based on Pub-2010 General Employee Mortality table for the General Employees Plan and RP 2014 tables for the Police and Fire and the Correctional Plans for males or females, as appropriate, with slight adjustments to fit PERA's experience. Cost of living benefit increases after retirement for retirees are assumed to be 1.25% per year for the General Employees Plan and 2.0% per year for the Correctional Plan. For the Police and Fire Plan, cost of living benefit increases for retirees are 1.0% per year as set by state statute.

Actuarial assumptions used in the June 30, 2020 valuation were based on the results of actuarial experience studies. The most recent four-year experience study for the General Employees Plan was completed in 2019. The assumption changes were adopted by the Board and became effective with the July 1, 2020 actuarial valuation. The four-year experience study used for the Police and Fire Plan was completed in 2016. The five-year experience study used for the Correctional Plan, prepared by a former actuary, was completed in 2012. The mortality assumption for the Correctional Plan is based on the Police and Fire Plan experience study completed in 2016. Inflation and investment return assumptions for the Police and Fire Plan and the Correctional Plan are based on the General Employees Retirement Plan experience study completed in 2019. The most recent four-year experience studies for the Police and Fire Plan and the Correctional Plan were completed in 2020. The recommended assumptions for those plans were adopted by the Board and will be effective with the July 1, 2021 actuarial valuations if approved by the Legislature.

NOTE 5 DEFINED BENEFIT PENSION PLANS (CONTINUED)

F. Actuarial Assumptions (Continued)

The following changes in actuarial assumptions and plan provisions occurred in 2020:

General Employees Fund

Changes in Actuarial Assumptions:

- The price inflation assumption was decreased from 2.50% to 2.25%.
- The payroll growth assumption was decreased from 3.25% to 3.00%.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

Changes in Plan Provisions

- Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

Police and Fire Fund

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2018 to MP-2019.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

NOTE 5 DEFINED BENEFIT PENSION PLANS (CONTINUED)

F. Actuarial Assumptions (Continued)

Correctional Fund

Changes in Actuarial Assumptions:

- The mortality projection scale was changed from MP-2018 to MP-2019.

Changes in Plan Provisions

- There have been no changes since the prior valuation.

The State Board of Investment, which manages the investments of PERA, prepares an analysis of the reasonableness on a regular basis of the long-term expected rate of return using a building-block method in which best-estimate ranges of expected future rates of return are developed for each major asset class. These ranges are combined to produce an expected long-term rate of return by weighting the expected future rates of return by the target asset allocation percentages. The target allocation and best estimates of geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Real Rate of Return
Domestic Equity	35.5 %	5.10 %
International Equity	17.5	5.30
Private Markets	25.0	5.90
Fixed Income	20.0	0.75
Cash	2.0	-
Totals	<u>100.0 %</u>	

G. Discount Rate

The discount rate used to measure the total pension liability in 2020 was 7.50%. The projection of cash flows used to determine the discount rate assumed that contributions from plan members and employers will be made at rates set in Minnesota Statutes. Based on these assumptions, the fiduciary net positions of the General Employees Fund, the Police and Fire Fund, and the Correctional Fund were projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

NOTE 5 DEFINED BENEFIT PENSION PLANS (CONTINUED)

H. Pension Liability Sensitivity

The following presents Benton County proportionate share of the net pension liability for all plans it participates in, calculated using the discount rate disclosed in the preceding paragraph, as well as what Benton County proportionate share of the net pension liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

Description	1% Decrease 6.50%	Current Discount Rate 7.50%	1% Increase 8.50%
County's Proportionate Share of GERF			
Net Pension Liability	\$ 14,893,389	\$ 9,292,958	\$ 4,673,053
County's Proportionate Share of PEPFP			
Net Pension Liability	4,568,661	2,292,188	408,806
County's Proportionate Share of PECF			
Net Pension Liability	1,558,862	250,827	(796,454)

I. Pension Plan Fiduciary Net Position

Detailed information about the pension plan's fiduciary net position is available in a separately issued PERA financial report that includes financial statements and required supplementary information. That report may be obtained on the internet at www.mnpera.org.

NOTE 6 DEFINED CONTRIBUTION PLAN

Five County board members are covered by the Defined Contribution Plan, a multiple-employer deferred compensation plan administered by PERA. The Defined Contribution Plan is a tax qualified plan under Section 401(a) of the Internal Revenue Code and all contributions by or on behalf of employees are tax deferred until time of withdrawal.

Plan benefits depend solely on amounts contributed to the plan plus investment earnings, less administrative expenses. *Minnesota Statutes*, Chapter 353D.03, specifies plan provisions, including the employee and employer contribution rates for those qualified personnel who elect to participate. An eligible elected official who decides to participate contributes 5% of salary which is matched by the elected official's employer. For ambulance service personnel, employer contributions are determined by the employer, and for salaried employees contributions must be a fixed percentage of salary. Employer contributions for volunteer personnel may be a unit value for each call or period of alert duty. Employees who are paid for their services may elect to make member contributions in an amount not to exceed the employer share. Employer and employee contributions are combined and used to purchase shares in one or more of the seven accounts of the Minnesota Supplemental Investment Fund. For administering the plan, PERA receives 2% of employer contributions and twenty-five hundredths of 1% (0.25%) of the assets in each member's account annually.

NOTE 6 DEFINED CONTRIBUTION PLAN (CONTINUED)

Total contributions made by the County during fiscal year 2020 were:

Contribution Amount		Contribution Rate		Required
Employee	Employer	Employee	Employer	Rates
\$ 8,608	\$ 8,608	5.0 %	5.0 %	5.0 %

NOTE 7 OPEB DISCLOSURE

The County provides health insurance benefits for certain retired employees under a single-employer fully-insured defined benefit plan. The County provides benefits for retirees as required by Minnesota Statutes §471.61 subdivision 2b. Active employees who retire from the County when eligible to receive a retirement benefit from PERA (or similar plan) and do not participate in any other health benefits program providing coverage similar to that herein described, will be eligible to continue coverage with respect to both themselves and their eligible dependent(s) under the County’s health benefits program. Pursuant to the provisions of the plan, retirees are required to pay 100% of the total premium cost, except for certain public safety employees who were injured in the line of duty and the County is obligated to pay their insurance. Since the premium is a blended rate determined on the entire active and retiree population, the retirees are receiving an implicit rate subsidy. As of January 1, 2020, there were 28 inactive employees receiving health benefits from the County’s health plan. The County has no active employees or inactive employees entitled to but not receiving benefits.

A. Funding Policy

The County’s OPEB plan is financed on a pay-as-you-go basis and currently has no assets that have been deposited into an irrevocable trust for future health benefits. Therefore, the actuarial value of assets is zero. Separate stand-alone financial statements are not issued for the plan.

B. Actuarial Methods and Assumptions

The County’s OPEB liability was measured as of January 1, 2020, and the total OPEB liability was determined by an actuarial valuation as of January 1, 2020.

The total OPEB liability was determined by an actuarial valuation as of January 1, 2020, using the following actuarial assumptions, applied to all periods included in the measurement, unless otherwise specified:

Inflation	2.5%
Salary	Service graded table
Health Care Trend Rates	6.50% Decreasing to 5.00% over 6 years then to 4.00% Over 48 Years

**BENTON COUNTY
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

NOTE 7 OPEB DISCLOSURE (CONTINUED)

B. Actuarial Methods and Assumptions (Continued)

Mortality rates were based on the Pub-2010 public retirement plans headcount-weighted mortality tables (general, safety) with MP-2019 Generational Improvement Scale. The actuarial assumptions used in the January 1, 2020 valuation were based on the PERA actuarial experience studies. The most recent six-year experience study for the General Employees Plan was completed in 2015. The most recent four-year experience study for the Police and Fire Plan was completed in 2016.

The discount rate used to measure the total OPEB liability was 2.90%. The discount rate is equal to the 20-Year high quality, tax-exempt, general obligation municipal bonds as of the Measurement Date.

Since the most recent valuation, the following assumption changes have been made:

- The discount rate was changed from 3.80% to 2.90%.
- The medical trend rates, mortality tables, and salary increase rates were updated.

C. Changes to Total OPEB Liability

	Total OPEB liability
Balance as of January 1, 2020	\$ 1,122,950
Changes for the Year:	
Service Cost	87,961
Interest	44,760
Assumption Changes	58,986
Differences between Expected and Actual Experience	152,464
Benefit Payments	(66,658)
Net Change in Total OPEB Liability	277,513
Balance as of December 31, 2020	\$ 1,400,463

Of the \$1,400,463 total OPEB liability, \$89,710 is due within one year. The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using a discount rate one percentage point lower or one percentage point higher than the current discount rate:

	1% Decrease (1.90%)	Discount Rate (2.90%)	1% Increase (3.90%)

C. Changes to Total OPEB Liability (Continued)

The following presents the total OPEB liability of the County, as well as what the County's total OPEB liability would be if it were calculated using healthcare cost trend rates that are 1% lower (5.50% decreasing to 4.00% then 3.00%) or 1% higher (7.50% decreasing to 6.00% then 5.00%) than the current healthcare costs trend rates:

Medical Trend Rate	1% Decrease (5.50% Decreasing to 4.00% then 3.00%)	Current Trend Rates (6.50% Decreasing to 5.00% then 4.00%)	1% Increase (7.50% Decreasing to 6.00% then 5.00%)
Total OPEB Liability	\$ 1,272,756	\$ 1,400,463	\$ 1,550,102

For the year ended December 31, 2020, the County recognized OPEB expense of \$157,628. The County reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Description	Deferred Outflows of Resources	Deferred Inflows of Resources
Changes in Actuarial Assumptions	\$ 50,559	\$ 26,504
Liability Gain or Loss	130,683	-
County Contributions Subsequent to the Measurement Date	89,710	-
Total	<u>\$ 270,952</u>	<u>\$ 26,504</u>

\$89,710 reported as deferred outflows of resources related to OPEB resulting from County contributions subsequent to the measurement date will be recognized as a reduction of the total OPEB liability in the year ended December 31, 2021. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to OPEB will be amortized over 7 years and will be recognized in OPEB expense as follows:

Year Ended December 31,	OPEB Expense Amount
2021	\$ 24,907
2022	24,907
2023	24,907
2024	24,907
2025	24,908
Thereafter	30,202

NOTE 8 RISK MANAGEMENT

The County is exposed to various risks of loss related to torts; theft of, damage to, or destruction of assets; errors or omissions; injuries to employees; or natural disasters. The County has entered into a joint powers agreement with other Minnesota counties to form the Minnesota Counties Intergovernmental Trust (MCIT). The County is a member of both the MCIT Workers' Compensation and Property and Casualty Divisions. For other risk, the County carries commercial insurance. There were no significant reductions in insurance from the prior year. The amount of settlements did not exceed insurance coverage for the past three fiscal years.

The Workers' Compensation Division of MCIT is self-sustaining based on the contributions charged, so that total contributions plus compounded earnings on these contributions will equal the amount needed to satisfy claims liabilities and other expenses. MCIT participates in the Workers' Compensation Reinsurance Association with coverage at \$500,000 per claim in 2020. Should the MCIT Workers' Compensation Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

The Property and Casualty Division of MCIT is self-sustaining and the County pays an annual premium to cover current and future losses. The MCIT carries reinsurance for its property lines to protect against catastrophic losses. Should the MCIT Property and Casualty Division liabilities exceed assets, MCIT may assess the County in a method and amount to be determined by MCIT.

On September 19, 2017, Benton County entered into a joint powers agreement with four counties (Lyon, Murray, Redwood, and Swift) and Southwest Health and Human Services to form the Minnesota Public Sector Collaborative to self-insure health insurance as of January 1, 2018. Currently, the County contracts with Preferred One to administer employee and dependent group health coverage. Claims are paid by Preferred One and reimbursed by the County on a weekly basis.

**BENTON COUNTY
NOTES TO FINANCIAL STATEMENTS
DECEMBER 31, 2020**

NOTE 8 RISK MANAGEMENT (CONTINUED)

Premiums are paid into the Internal Service Fund by all other funds and are available to pay claims, claim reserves, and administrative costs of the program. The County has retained risk up to a \$60,000 specific excess coverage per contract claim per year (\$1,000,000 aggregate) for the health plan. Liabilities of the fund are reported when it is probable that the loss has occurred and the amount of the loss can be reasonably estimated. Liabilities include an amount for claims that have been incurred but not reported (IBNR). The result of the process to estimate the claims liability is not an exact amount, as it depends on many complex factors, such as inflation, changes in legal doctrines, and damage awards. Accordingly, claims are re-evaluated periodically to consider the effects of inflation, recent claim settlement trends (including frequency and amount of payouts), and other economic and social factors.

Changes in the balance of claims liabilities during the past two years are as follows:

	Year Ended December 31,	
	2020	2019
Unpaid Claims, Beginning of Year	\$ 300,824	\$ 375,521
Incurred Claims (including IBNR)	4,100,313	3,520,472
Claims Payments	(3,697,311)	(3,595,169)
Unpaid Claims, End of Year	\$ 703,826	\$ 300,824

Tri-County Solid Waste Commission

The Tri-County Solid Waste Commission was established in July 1983 by a joint powers agreement among Benton, Sherburne, and Stearns Counties to conduct a solid waste management program on behalf of the participating counties. The Commission is an organized joint venture having the duties, powers, and privileges granted joint powers by Minnesota Statutes §471.59. The Commission is governed by a board of directors. Each member county is entitled to no less than two and no more than four of its own county commissioners on the board. Population of the member counties determines how many of their commissioners sit on the board. The board of directors currently comprises eight members: four county commissioners from Stearns County and two each from Benton and Sherburne Counties.

Each county's proportionate share of the net operating costs is based on the usage of the household hazardous waste facility and the solid waste picked up in each county. The County contributed \$32,627 during 2020. There is no accumulation of significant financial resources or fiscal stress related to this entity.

The Commission will remain in existence so long as two or more counties remain as parties to the agreement. Upon dissolution of the Commission, there will be an accounting to determine assets and liabilities. The assets of the Commission will be liquidated and, after payment of liabilities, the proceeds will be distributed to the member counties in the ratio that the total contributions made by each of them bears to the sum total of contributions made by all.

B. Contingent Liabilities

Amounts received or receivable from granting agencies are subject to audit and adjustment by grantor agencies, principally the federal government. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of the expenditures that may be disallowed by the grantor cannot be determined at this time, although the County expects such amounts, if any, to be immaterial.

NOTE 10 TAX ABATEMENTS

The County has multiple pay-as-you-go tax increment financing districts with local businesses pursuant to Minn. Stat. §§ 469.174-1799; three to promote economic development, two to promote housing districts for low to moderate income, and one to promote redevelopment. The County is currently collecting tax increments that are paid through the property tax collection processes. The requirement for businesses to receive the excess tax increments from the County is to perform improvements on the owned property. The increment taxes are based on the increase of the property value after the improvements are made. There are six TIF Districts that exist within Benton County boundaries which are listed below by city.

Purpose	Name	City	Percentage of Increment Collected to Be Returned	Decertification Date	Excess Tax Increment Paid During 2020

BENTON COUNTY
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
DECEMBER 31, 2020

I. BUDGETARY INFORMATION

The County board adopts annual budgets for the General Fund, certain special revenue funds (Road and Bridge, and Human Services), Debt Service Fund, and Capital Projects Fund. These budgets are prepared on the modified accrual basis of accounting. Annual budgets are not adopted for the Economic Development, Miscellaneous, Ditch, Boundary Commission, and Gravel Pit Restoration Special Revenue Funds.

Based on a process established by the County board, all departments for the County submit requests for appropriations to the County Administrator each year. After review, analysis, and discussions with the departments, the County Administrator's proposed budget is presented to the County board for review. The County board holds public hearings and a final budget must be prepared and adopted no later than December 31.

The overall budget is prepared by fund and department. The legal level of budgetary control – the level at which expenditures may not legally exceed appropriations – is the department level. The Road and Bridge and Human Services Funds are considered departments of one for budgetary control purposes. Budgets may be amended during the year with proper approval.

**BENTON COUNTY
NOTES TO REQUIRED SUPPLEMENTARY INFORMATION
DECEMBER 31, 2020**

III. CHANGES IN SIGNIFICANT PENSION PLAN PROVISIONS, ACTUARIAL METHODS, AND ASSUMPTIONS

The following changes were reflected in the valuation performed on behalf of the Public Employees Retirement Association for the year ended June 30:

A. General Employees Fund
2020

Changes in Actuarial Assumptions

- The price inflation assumption was decreased from 2.50% to 2.25%.
- The payroll growth assumption was decreased from 3.25% to 3.00%.
- Assumed salary increase rates were changed as recommended in the June 30, 2019 experience study. The net effect is assumed rates that average 0.25% less than previous rates.
- Assumed rates of retirement were changed as recommended in the June 30, 2019 experience study. The changes result in more unreduced (normal) retirements and slightly fewer Rule of 90 and early retirements.
- Assumed rates of termination were changed as recommended in the June 30, 2019 experience study. The new rates are based on service and are generally lower than the previous rates for years 2-5 and slightly higher thereafter.
- Assumed rates of disability were changed as recommended in the June 30, 2019 experience study. The change results in fewer predicted disability retirements for males and females.
- The base mortality table for healthy annuitants and employees was changed from the RP-2014 table to the Pub-2010 General Mortality table, with adjustments. The base mortality table for disabled annuitants was changed from the RP-2014 disabled annuitant mortality table to the PUB-2010 General/Teacher disabled annuitant mortality table, with adjustments.
- The mortality improvement scale was changed from Scale MP-2018 to Scale MP-2019.
- The assumed spouse age difference was changed from two years older for females to one year older.
- The assumed number of married male new retirees electing the 100% Joint & Survivor option changed from 35% to 45%. The assumed number of married female new retirees electing the 100% Joint & Survivor option changed from 15% to 30%. The corresponding number of married new retirees electing the Life annuity option was adjusted accordingly.

Changes in Plan Provisions

- Augmentation for current privatized members was reduced to 2.0% for the period July 1, 2020 through December 31, 2023 and 0.0% after. Augmentation was eliminated for privatizations occurring after June 30, 2020.

2019

Changes in Actuarial Assumptions

- The mortality projection scale was changed from MP-2017 to MP-2018.

Changes in Plan Provisions

- The employer supplemental contribution was changed prospectively, decreased from \$31.0 million to \$21.0 million per year. The State's special funding contribution was changed prospectively, requiring \$16.0 million due per year through 2031.

A. General Employees Fund (Continued)
2018

Changes in Actuarial Assumption

- The mortality projection scale was changed from MP-2015 to MP-2017.
- The assumed postretirement benefit increase was changed from 1.0% per year through 2044 and 2.50% per year thereafter to 1.25% per year.

Changes in Plan Provisions

- The augmentation adjustment in early retirement factors is eliminated over a five-year period starting July 1, 2019, resulting in actuarial equivalence after June 30, 2024.
- Interest credited on member contributions decreased from 4.00% to 3.00%, beginning July 1, 2018.
- Deferred augmentation was changed to 0.00%, effective January 1, 2019. Augmentation that has already accrued for deferred members will still apply.
- Contribution stabilizer provisions were repealed.
- Postretirement benefit increases were changed from 1.00% per year with a provision to increase to 2.50% upon attainment of 90.00% funding ratio to 50.00% of the Social Security Cost of Living Adjustment, not less than 1.00% and not more than 1.50% beginning January 1, 2019.
- For retirements on or after January 1, 2024, the first benefit increase is delayed until the retiree reaches normal retirement age; does not apply to Rule of 90 retirees, disability benefit recipients, or survivors.
- Actuarial equivalent factors were updated to reflect revised mortality and interest assumptions.

2017

Changes in Actuarial Assumption

- The Combined Service Annuity (CSA) loads were changed from 0.8% for active members and 60% for vested and nonvested deferred members. The revised CSA loads are now 0.0% for active member liability, 15.0% for vested deferred member liability and 3.0% for nonvested deferred member liability.
- The assumed postretirement benefit increase rate was changed from 1.0% per year for all years to 1.0% per year through 2044 and 2.5 % per year thereafter.

Changes in Plan Provisions

- The State's contribution for the Minneapolis Employees Retirement Fund equals \$16,000,000 in 2017 and 2018, and \$6,000,000 thereafter.
- The Employer Supplemental Contribution for the Minneapolis Employees Retirement Fund changed from \$21,000,000 to \$31,000,000 in calendar years 2019 to 2031. The state's contribution changed from \$16,000,000 to \$6,000,000 in calendar years 2019 to 2031.

**REPORTS RELATED TO *GOVERNMENT AUDITING STANDARDS*
AND SINGLE AUDIT**

**INDEPENDENT AUDITORS' REPORT
ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER
MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE
WITH *GOVERNMENT AUDITING STANDARDS***

Board of County Commissioners
Benton County
Foley, Minnesota

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Benton County, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise Benton County's basic financial statements, and have issued our report thereon dated August 26, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered Benton County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Benton County's internal control. Accordingly, we do not express an opinion on the effectiveness of Benton County's internal control.

Our consideration of internal control was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as described in the accompanying schedule of findings and questioned costs, we identified certain deficiencies in internal control that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. We consider the deficiencies described in the accompanying schedule of findings and questioned costs as items 2020-001 to 2020-002 to be material weaknesses.

A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance. We consider the deficiency described in the accompanying schedule of findings and questioned costs as item 2020-003 to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether Benton County's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the financial statements. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Benton County's Responses to Findings

Benton County's responses to the findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Benton County's responses were not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on them.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the result of that testing, and not to provide an opinion on the effectiveness of Benton County's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Benton County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

**INDEPENDENT AUDITORS' REPORT ON COMPLIANCE FOR EACH MAJOR
FEDERAL PROGRAM AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE
REQUIRED BY THE UNIFORM GUIDANCE**

Board of County Commissioners
Benton County
Foley, Minnesota

Report on Compliance for Each Major Federal Program

We have audited Benton County's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Benton County's major federal programs for the year ended December 31, 2020. Benton County's major federal programs are identified in the summary of auditors' results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Benton County's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Benton County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Benton County's compliance.

Opinion on Each Major Federal Program

In our opinion, Benton County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended December 31, 2020.

Other Matters

The results of our auditing procedures disclosed instances of noncompliance, which are required to be reported in accordance with the Uniform Guidance and which are described in the accompanying schedule of findings and questioned costs as items 2020-005 to 2020-007. Our opinion on each major federal program is not modified with respect to these matters.

Benton County's responses to the noncompliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Benton County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Report on Internal Control Over Compliance

Management of Benton County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Benton County's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Benton County's internal control over compliance.

Our consideration of internal control over compliance was for the limited purpose described in the preceding paragraph and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. However, as discussed below, we did identify certain deficiencies in internal control over compliance that we consider to be material weaknesses and significant deficiencies.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2020-004 and 2020-005 to be material weaknesses.

A significant deficiency in internal control over compliance is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance. We consider the deficiencies in internal control over compliance described in the accompanying schedule of findings and questioned costs as items 2020-006 and 2020-007 to be significant deficiencies.

Board of County Commissioners
Benton County

Benton County's responses to the internal control over compliance findings identified in our audit are described in the accompanying schedule of findings and questioned costs. Benton County's responses were not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the responses.

Purpose of this Report

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

MATERIAL WEAKNESSES (FINANCIAL REPORTING):

AUDIT ADJUSTMENTS (2020-001)

Criteria: County management is responsible for establishing and maintaining internal controls for the proper recording of all County's receipts and disbursements, including reclassifications between funds and activity of all investing and savings accounts.

Condition and Context: As part of the audit, we proposed material adjustments for closing the County's books at year-end, recording of accruals, recording of inventory adjustments, recording the issuance of capital leases, recording of prepaids, implementing GASB 84, net pension liability and related deferred inflows and outflows of resources, reclassifications of fund balances between categories and revenues and expenditures to the proper accounts.

Cause: The County has a limited number of personnel.

Possible Effect: The design of the internal controls over recording revenues and expenditures, including reclassifications, could affect the ability of the County to detect or prevent errors, a misappropriation of assets, or fraudulent activity.

Repeat Finding: Yes, 2019-001.

Recommendation: We recommend County management be consistently aware of all procedures and processes involved in recording receipts, disbursements, and reclassifications, and develop internal control policies to ensure proper recording of these items.

Views of Responsible Officials and Planned Corrective Actions: There is no disagreement with the audit finding. Management will continue to work at eliminating the need for audit adjustments through learning about new GASB standards and reviewing work performed by department personnel.

MATERIAL WEAKNESSES (FINANCIAL REPORTING) (CONTINUED):

FINANCIAL REPORTING PROCESS (2020-002)

Criteria: County management is responsible for establishing and maintaining internal controls, including monitoring, and for the fair presentation of the financial statements in accordance applicable accounting and reporting standards.

Condition and Context: As part of the audit, management requested us to prepare a draft of the financial statements, including the related notes to the financial statements. The County does not have an internal control policy in place over preparation or review of the annual financial statements that would enable management to prepare the financial statements and related note disclosures in accordance with applicable accounting and reporting standards. Management reviews and accepts responsibility for the financial statements.

Cause: The County has a limited number of personnel.

Possible Effect: The potential exists that a material misstatement of the annual financial statements could occur and not be prevented or detected by the County's internal controls.

Repeat Finding: Yes, 2019-002.

Recommendation: We recommend the County continue to evaluate their internal staff capacity to determine if an internal control policy over the preparation of the financial statements and other areas is beneficial.

Views of Responsible Officials and Planned Corrective Actions: There is no disagreement with the audit finding. The County will review the financial reporting requirements and undertake them if deemed cost-beneficial.

**BENTON COUNTY
SCHEDULE OF FINDINGS AND QUESTIONED COSTS (CONTINUED)
DECEMBER 31, 2020**

SIGNIFICANT DEFICIENCY (FINANCIAL REPORTING):

SEGREGATION OF DUTIES (2020-003)

Criteria: Management should always be aware of the need to have adequate segregation of duties regarding the processing of transactions for the County. In addition, management should be aware that the concentration of duties and responsibilities in one or a very few individuals is not desirable from an internal control perspective.

Condition and Context: Adequate segregation of the accounting functions necessary to ensure adequate internal accounting control, is not in place for various departments/offices in the County. Also, some areas do not have proper review due to limited personnel resulting in the lack of some controls.

Cause: The County has a limited number of personnel within several departments/offices.

Possible Effect: The lack of adequate segregation of duties can result in incorrect financial information, failure to detect misstatements or misappropriations, and the lack of adherence to the County's procedures.

Repeat Finding: Yes, 2019-003.

Recommendation: We recommend management be aware of the lack of segregation of duties within the accounting functions and provide oversight to ensure the internal control policies and procedures are being implemented by organization staff.

Views of Responsible Officials and Planned Corrective Actions: There is no disagreement with the audit finding. The County will review the accounting functions and segregate them if deemed cost-beneficial.

FEDERAL AWARD FINDINGS AND QUESTIONED COSTS:

CASEFILE REVIEW (2020-004)

Federal Agency: U.S. Department of Health and Human Services

Federal Program Title: Temporary Assistance for Needy Families and Medical Assistance Program (Medicaid Cluster)

CFDA Number: 93.558 and 93.778

Pass-Through Agency: Minnesota Department of Human Services and Minnesota Department of Health

Pass-Through Numbers: 2001MNTANF, 2005MN5ADM, 2005MN5MAP

Compliance Requirement Affected: Eligibility

Award Period: Year-Ended December 31, 2020

Type of Finding: Material Weakness in Internal Control over Compliance

Criteria: According to Uniform Guidance 2 CFR Part 200 and Appendix XI Compliance Supplement for CFDA 93.558 and CFDA 93.778, standard internal control procedures recommend internal reviews over case file eligibility determinations to ascertain case workers are complying with state and federal requirements.

Condition and Context: During inquiry and our statistically valid sample testing of case files reviews completed during 2020, it was noted that there were minimal to no case file reviews performed for both Temporary Assistance for Needy Families and Medical Assistance. The sample sizes were based on guidance from chapter 11 of the AICPA Audit Guide, *Government Auditing Standards and Single Audits* if there were case file reviews performed.

Questioned Costs: Unable to be determined.

Cause: Lack of personnel.

Possible Effect: Errors made in determining eligibility may not be discovered and benefits may be issued to clients who are not eligible.

Repeat Finding: Yes, 2019-004 related to CFDA Number 93.558.

Recommendation: We recommend the County review case files on a periodic basis throughout the year.

Views of Responsible Officials: There is no disagreement with the audit finding.

FEDERAL AWARD FINDINGS AND QUESTIONED COSTS (CONTINUED):

ELIGIBILITY DOCUMENTATION – TEMPORARY ASSISTANCE FOR NEEDY FAMILIES (2020-005)

Federal Agency: U.S. Department of Health and Human Services

Federal Program Title: Temporary Assistance for Needy Families

CFDA Number: 93.558

Pass-Through Agency: Minnesota Department of Human Services

Pass-Through Numbers: 2001MNTANF

Compliance Requirement Affected: Eligibility

Award Period: Year-Ended December 31, 2020

Type of Finding: Material Weakness in Internal Control over Compliance and Other Matters

Criteria: According to Uniform Guidance 2 CFR Part 200 and Appendix XI Compliance Supplement for CFDA 93.558, the federal eligibility compliance requirements for Temporary Assistance for Needy Families require verification whether or not they or any member of their household has been convicted of a felony involving a controlled substance, an annual application, including a signature, and documentation of a medical exemption from the employment compliance requirement, if applicable.

Condition and Context: During our statistically valid sample testing of eligibility, it was noted that five of sixty casefiles had exceptions detected as follows:

- One of sixty casefiles did not have documentation whether or not they or any member of their household had been convicted of a felony involving a controlled substance.
- Two of sixty casefiles were transfer cases and were missing the annual application.
- One of sixty casefiles was missing the medical opinion form verifying the person was exempt from the employment compliance requirement.
- One of sixty casefiles was missing the signature page of the application.

The sample sizes were based on guidance from chapter 11 of the AICPA Audit Guide, *Government Auditing Standards and Single Audits*.

Questioned Costs: Not applicable. The County administers the program, but benefits to participants in this program are paid by the state of Minnesota.

Cause: Program personnel entering case information did not ensure all required information was input or updated correctly or that all required information was obtained and/or retained.

Possible Effect: The County could be providing benefits to ineligible clients.

Repeat Finding: Yes, 2019-005

Recommendation: We recommend the County implement procedures to provide reasonable assurance that all necessary documentation to support eligibility determinations exist and issues are followed up on in a timely manner.

Views of Responsible Officials: There is no disagreement with the audit finding.

Pass-Through Agency: Minnesota Department of Human Services
Pass-Through Numbers: 2005MN5ADM, 2005MN5MAP
Compliance Requirement Affected: Eligibility
Award Period: Year-Ended December 31, 2020

Type of Finding: Significant Deficiency in Internal Control over Compliance and Other Matters

Criteria: According to Uniform Guidance 2 CFR Part 200 and Appendix XI Compliance Supplement for CFDA 93.778, the federal eligibility compliance requirements for Medical Assistance require verification of specific assets owned by applicants. In order for benefit amounts to be calculated correctly, it's necessary for the information to be entered into the state eligibility system, MAXIS, accurately.

Condition and Context: During our statistically valid sample testing of eligibility, it was noted that two out of sixty transactions did not have asset documentation to support the amount that was entered into the state system MAXIS. The sample sizes were based on guidance from chapter 11 of the AICPA Audit Guide, *Government Auditing Standards and Single Audits*.

Questioned Costs: Not applicable. The County administers the program, but benefits to participants in this program are paid by the state of Minnesota.

Cause: Program personnel entering case information in MAXIS did not ensure all required information was input or updated in MAXIS correctly or that all required information was obtained and/or retained.

Possible Effect: The County could be providing benefits to ineligible clients.

Repeat Finding: Yes, 2019-006.

Recommendation: We recommend the County implement procedures to provide reasonable assurance that all necessary documentation to support eligibility determinations exist and are properly input or updated in MAXIS and issues are followed up on in a timely manner.

CFDA Number: 21.019
Pass-Through Agency: Minnesota Department of Revenue
Pass-Through Numbers: SLT0016
Compliance Requirement Affected: Reporting
Award Period: Year-Ended December 31, 2020

Type of Finding: Significant Deficiency in Internal Control over Compliance and Other Matters

Criteria: Standard internal control and compliance procedures dictate that all reports should have supporting documentation kept on file.

Condition and Context: During our statistically valid sample testing of reporting, it was noted that 4 out of 5 monthly reports tested did not save the monthly general ledger detail for their spreadsheet used to create the monthly reports submitted. The County did however have support for their final report submitted to Minnesota Management and Budget (MMB). The sample sizes were based on guidance from chapter 11 of the AICPA Audit Guide, *Government Auditing Standards and Single Audits*. We did note during our audit that the overall/final report did have the supporting detail.

Questioned Costs: None.

Cause: Oversight by management due to it being a new grant.

Possible Effect: The County could have submitted inaccurate reports for reimbursement.

Repeat Finding: Not applicable.

Recommendation: We recommend the County implement procedures to ensure any future reports have the detail retained for each report.

Views of Responsible Officials: There is no disagreement with the finding. The County maintains that general ledger detail in the County's financial system was retained. The County utilized a spreadsheet tracking system to complete required State Coronavirus Relief Fund reporting. This spreadsheet was updated monthly and tied to our final report. However monthly versions of the spreadsheet were not saved.

DITCH SPECIAL REVENUE FUND – CASH DEFICIT (2020-008)

Criteria: Minnesota Statutes §103E.655 subd. 2 requires active ditch systems to maintain sufficient funds to pay for project costs.

Condition and Context: The County reported 9 out of 12 active ditch systems as having deficit cash balances as of December 31, 2020, totaling \$112,806.

Cause: Expenditures to upgrade ditches are incurred prior to revenue stream.

Possible Effect: The County is not in compliance with Minnesota Statutes §103E.655 subd. 2.

Repeat Finding: Yes, 2019-009.

Recommendation: We recommend the County continue to try to eliminate the deficit cash balances in the active ditch systems by borrowing from an eligible ditch system or fund with a surplus cash balance.

CLIENT'S RESPONSE:

The County has made the managerial decision to accumulate expenditures related to ditch cleaning projects, establishing loans to ditch accounts once all final expenditures are known. Ditch cleaning projects can span two-three years, creating short-term deficits in ditch accounts. Delaying loans until all ditch expenditures are known eliminates the need to make interim loans, or loan amount adjustments.

Notes to the Schedule of Expenditures of Federal Awards

- The Schedule of Expenditures of Federal Awards presents the activities of federal award programs expended by Benton County. The County's reporting entity is defined in Note 1 to the financial statements.
- The accompanying Schedule of Expenditures of Federal Awards includes the federal grant activity of Benton County under programs of the federal government for the year ended December 31, 2020. The information in this schedule is presented in accordance with the requirements of Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) from the Office of Management and Budget (OMB). Because the schedule presents only a selected portion of the operations of Benton County, it is not intended to and does not present the financial position or changes in net position of Benton County.
- Expenditures reported on the schedule are reported on the modified accrual basis of accounting. Such expenditures are recognized following the cost principles contained in Title 2 U.S. Code of Federal Regulations Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards*, for all awards with the exception of CFDA 21.019, which follows criteria determined by the Department of Treasury for allowability of costs. Under these principles, certain types of expenditures are not allowable or are limited as to reimbursement. Benton County has elected not to use the 10 percent de minimis indirect cost rate allowed under the Uniform Guidance.

INDEPENDENT AUDITORS' REPORT ON MINNESOTA LEGAL COMPLIANCE

Board of County Commissioners
Benton County
Foley, Minnesota

We have audited, in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States, the financial statements of the governmental activities, each major fund, and the aggregate remaining fund information of Benton County, Minnesota, as of and for the year ended December 31, 2020, and the related notes to the financial statements, which collectively comprise the County's financial statements as listed in the table of contents and have issued our report thereon dated August 26, 2021.

In connection with our audit, we noted that Benton County failed to comply with provisions of the miscellaneous provisions of *Minnesota Legal Compliance Audit Guide for Counties*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, in so far as they relate to accounting matters as described in the schedule of findings and questioned costs as item 2020-008. Also, in connection with our audit, nothing came to our attention that caused us to believe that Benton County failed to comply with the provisions of the contracting and bidding, deposits and investments, conflicts of interest, public indebtedness, and claims and disbursements sections of the *Minnesota Legal Compliance Audit Guide for Counties*, promulgated by the State Auditor pursuant to Minn. Stat. § 6.65, insofar as they relate to accounting matters. However, our audit was not directed primarily toward obtaining knowledge of such noncompliance. Accordingly, had we performed additional procedures, other matters may have come to our attention regarding the County's noncompliance with the above-referenced provisions, insofar as they relate to accounting matters.

Benton County's written response to the legal compliance finding identified in our audit is described in the schedule of findings and questioned costs. Benton County's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

The purpose of this report is solely to describe the scope of our testing of compliance relating to the provisions of the *Minnesota Legal Compliance Audit Guide for Counties* and the results of that testing, and not to provide an opinion on compliance. Accordingly, this report is not suitable for any other purpose.
