

ACCEPTABLE FORMS OF IDENTIFICATION for DHS Background Study Fingerprinting

Background study subjects must bring an acceptable form of identification with them to the fingerprint and photo service location. All state-issued drivers' licenses and identity cards are accepted, and all passports are accepted. IDEMIA's pre-enrollment process provides a list of acceptable forms of identification. The list applies to study subjects regardless of age. Study subjects select which one they will bring to the fingerprint and photo service location during the pre-enrollment process.

At the fingerprint location, the study subject may provide a different form of identification if it is on the list of acceptable forms of identification and the study subject's name and date of birth on the identification are the match their information in NETStudy 2.0

- State issued drivers' license or identity card
- Passport
- Drivers' license permit issued by a state or outlying possession of the U.S.
- Drivers' license permit issued by a state or outlying possession of the U.S.

- Canadian driver's license
- Mexican driver's license
- U.S. visa issued by the U.S. State Department Bureau of Consular Affairs for travel to or within, or residence within, the United States.

If a study subject does not have one of the acceptable forms of identification, the entity submitting the NETStudy 2.0 application may contact the DHS Background Studies Division by email at dhs.netstudy2@state.mn.us to request an exception. The email must include the study subject's background study number, the type of identification the entity used to verify the study subject's background study information, the type of identification the study subject is requesting to use, and the entity's provider number.
